

Our Village Community

What you have told us.....

The village is big enough and there should be no more houses built.

The rural feel to the village should be maintained.

Overdevelopment of garden plots should be resisted.

We need to keep our village doctor's surgery.

Traffic congestion at school start and finish times needs to be addressed.

We need to take measures to keep our village tidy, including more bins.

There is support for a gardening club.

We need to make good use of our Community Centre.

Our Village Community

Responses from the Youth Club:

- **No more housing is needed.**
- **School start and finish times should be staggered to help reduce vehicle congestion at start and finish time.**
- **More litter bins are needed.**
- **A work bartering system for the village is not desirable as people would argue.**
- **There is no desire for the community centre to be opened up for more uses.**
